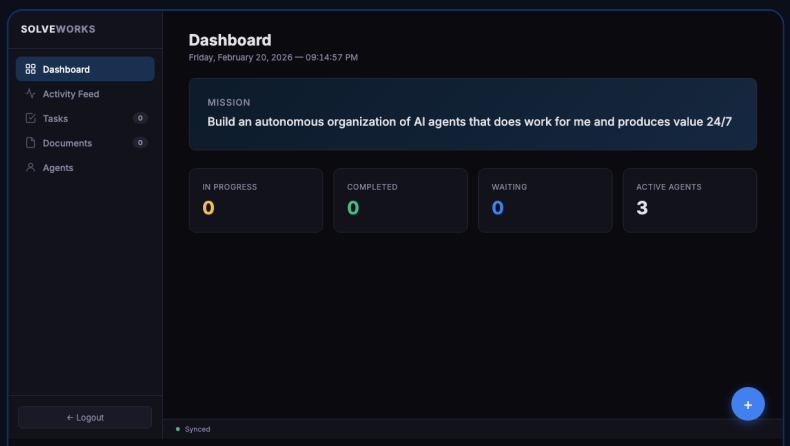
MANAGED LOCAL AI AGENTS FOR BUSINESS

Your AI agent.
Your hardware.
Your data.
Fully managed.

We deploy a **custom AI system** on dedicated hardware in your office. It handles email, scheduling, research, CRM updates, and follow-ups — built specifically for how **your** business operates.

Not a chatbot. Not a cloud app. A **full-power AI employee** that never sleeps, never forgets, and never leaves your building.



MISSION CONTROL — YOUR LIVE AGENT DASHBOARD (INCLUDED WITH EVERY DEPLOYMENT)

WHAT'S INCLUDED

Custom AI Agent
Built for your workflows. Connects to email, calendar, CRM, files, and APIs.

Dedicated Hardware
Mac Mini in your office. Your data never touches a shared server.

Mission Control
Live dashboard — agent activity, tasks, documents. Full visibility, always.

Ongoing Management
We handle updates, monitoring, and new capabilities. You just use it.
