

Your AI agent. Your hardware. Your data. Fully managed.

We deploy a **custom AI system** on dedicated hardware in your office. It handles email, scheduling, research, CRM updates, and follow-ups — built **NOT** a chatbot. Not a cloud app. A **full-power AI employee** that **never sleeps**, **never forgets**, and never leaves your building.

The screenshot shows a dark-themed dashboard for 'Acme Co.' under 'Gourmet food distribution — powered by SolveWorks AI'. At the top right, a message states: 'This is a demo dashboard with sample data. Your real data stays private on your own secure instance.' Below this is the date and time: 'Saturday, February 21, 2026 — 05:13 PM'. The main area features several data cards: 'THIS WEEK' (\$12,450), 'THIS MONTH' (\$48,200), 'TOTAL REVENUE' (\$284,500), 'PRODUCTS IN STOCK' (47), 'LOW STOCK ALERTS' (7), 'RETAIL REVENUE' (\$112,400, 39% of total), 'WHOLESALE REVENUE' (\$72,100, 61% of total), 'TO DO' (5), 'IN PROGRESS' (4), 'WAITING' (3), 'DONE' (3), 'RECENT ORDERS', and 'RECENT ACTIVITY'. At the bottom, a note reads: 'Demo Dashboard - Powered by [SolveWorks.io](#)'.

WHAT'S INCLUDED

Custom AI Agent

Built for your workflows. Connects to email, calendar, CRM, files, and APIs.

RUNNING

LOCAL
DATA

"Within the first day, it had live lead scanners running, dividend research with analyst targets, and call coaching from my recordings. If you're an entrepreneur wearing multiple hats, this is the closest thing I've found to a real chief of staff."

— Drew Millington, Co-Founder of Multiple Tech Companies
